Dear Sir: I am concerned about a quick settlement of the Microsoft Case. I feel this should never been entered into our Judicial System. I have bought and own some "high tech" stocks which have suffered because of this lawsuit. I feel the quicker this suit is settled our entire markets system will move in a positive way. Hope so anyway. I feel Bill Gates made a mistake when he bragged he didn't give to a PAC. Had he taken several million to Washington DC and passed it around among the politicians this suit would never been filed. Our entire country has suffered because of an attempt to strangle free enterprise and creative development by Microsoft. Sincerely, C. Edward Bass, Woodway, Tx.
